Person with day-to-day responsibility for project:			
Paul Edelman, Chief of Natural Resources and Planning		310 589-3230, ext 128	
<i>Name and Title</i>		<i>Phone</i>	
Brief Scope of Work (60 words maximum): Fee acquisition of approximately 53 acres adjacent to Rocky Peak Park, and related closing costs and project transaction costs. APN 2821-009-020			
Funding Source Applied for: Proposition 50			
Narrative/Project Description: Devil Canyon is one of the headwater tributaries of the Los Angeles River, flowing from the Santa Susana Mountains through the densely populated areas of the San Fernando Valley and into the Los Angeles River. The subject 53-acre property is undeveloped natural land immediately east of Rocky Peak Park, with extensive oak woodland, walnut woodland, riparian, and coastal sage scrub resources. Preservation as parkland would protect the upper River watershed and important land and water resources. It would provide an important trail link for an eventual loop trail between Michael D. Antonovich Regional Park at Joughin Ranch and Rocky Peak Park. The requested grant funds would enable fee acquisition of the property (APN 2821-009-020), currently zoned A-2-2, County of Los Angeles, which would be converted to natural parkland. Acquisition of this Upper Los Angeles River property will directly protect land and water resources and is consistent with the Santa Monica Mountains Conservancy's Land Acquisition Workprogram, the <i>San Gabriel and Los Angeles River Watershed and Open Space Plan</i> as adopted by the Santa Monica Mountains Conservancy, and the <i>Rim of the Valley Trail Corridor Master Plan</i> .
